Spring 2023

	He was very straightforward in all of his lessons. Sometimes, he went fast but if someone didn't understand, he'd answer their question and clarified it with no annoyance or hesitance. Overall, he is an efficient TA and I really liked his teaching style.
	Hossien is the best TA I have ever had
	Hossien is an exceptional TA! His lab lectures are always very helpful. He has a very positive attitude and is very encouraging toward students. His open-door policy for questions has been truly helpful this semester. Hossien is the best math TA I've had at UH so far.
	Hossien's labs are a great supplement to Xhabli's lecture and really helped me grasp the concepts. He's super responsive even outside of class.
	Overall he was an outstanding TA one of the best TA's I've ever had, and if he reads this I hope you do become a professor :0
	Very good at explaining material and problems are very helpful. Very respectful as well. 10/10
	Would always do examples similar to the ones on exams which was really helpful. Also wouldn't mind answering some homework questions for us to make it easier going into the weekend. Great TA.
	He was a super helpful TA that answered any of your questions any day of the week.
	Hossein was a great help! So glad I was part of his lab.
	Hossein was the best TA I have ever had. He explained things really well without wasting a lot of time. Additionally, he was quite helpful, respectful, and open to helping anyone when he could. I cannot say enough good things about how great of a TA Hossein was this semester.
	absolutely the greatest TA i've ever had in my life, I hope to have him in every class i take again, but would wish his teaching to anyone who wants to learn and understand the easiest
17	This TA was amazing, he made all the student feel very comfortable when asking questions and made sure there was a way you could contact him if you didn't feel comfortable asking questions during the lab. He explained stuff very well and reiterated things that were confusing to students, he was able to answer questions very well as making himself EXTREMELY accessible. He was also available outside of class and it was very easy to get in contact with him.
	Mr. Hossein was one of the best Lab TAs I've had till date. Sometimes Dr. Xhabli would rush through a few concepts due to lack of time and it was the TA who would guide us understand them. His explanations were crystal clear and helped me understand the entire course. Even if we got stuck in a particular problem in the hw, he would give us personalised solutions. I loved attending his lectures.
	An amazing TA. Super helpful and super easy to reach outside of lab hours. Has an open door policy and always respond promptly. Very caring and passionate about his teaching. Always willing to help students out in lab and great at explaining topics. Very friendly and easy to approach. Tries to advocate for students and gives partial credit where he can. Would definitely recommend!
	Amazing TA!
	Sahebjame, Hossien was great TA. He always helps a student if he can and always respond on time if questions are asked online. However, in some lab exercises, he sometimes skips steps on the problems which were sometimes confusing. Overall, he is a great TA but needed to write step by step, line by line for every problem so all students can understand.
	Tends to rush the problems often; however, practice problems are excellent.
	He was an amazing TA. His lab lecture would help me understand and clarify any questions from class. He has an open door policy which was so helpful and we would answer any question to the best of his ability with a good explanation. Sometimes he would go over homework questions in class which helped a lot. Any questions were welcomed and he always had a positive attitude about it. You can tell he enjoyed what he did and he made the class so much easier.
	I had Hossien Sahebjame as my TA and he was absolutely amazing when it came to breaking down the material. He was also very efficient with teaching and was a genuinely understanding guy. If I could chose a TA again for Calculus 3 I would pick him.
	Great TA. Always checked to make sure everyone understood the content and would let students out early if he finished the content quickly. It let me get to my next class that was 15 minutes away.
	I appreciated the teaching assistant's ability to work through problems in detail and prepare us for the lab quizzes we had almost every week.
	My lab TA just worked on practice problems everyday which was beneficial.
