What parts of the course helped you learn?
the videos he made for his lectures
The office hours helped a lot.
He has very helpful voice overs and quick email replies.
It was straight forward.
Notes were always available
lectures being posted as well as videos from the professor
The examples given were very useful to understand the theory
Revising the note pages and the videos played a key part in my learning.
Voice over notes

What specific recommendations do you have to improve this course?
just stay up to date
Just more feedback on assignments or exams.
N/A
More clarity on assignments
Clearer notes, check emails, check homeworks if the questions are correct
hosting a lecture online
A meeting for questions online once a week
None
None

Which topic was the most challenging for you to learn and why?
all the sin cos tan were a bit tricky
N/A
N/A
Maybe the Trig inequalities
none
graphing
None
Unit 4 felt the most challenging
Verifying

Are there additional resources that could have helped you in this course (if so, please give examples)?

no

N/A

N/A

Maybe more videos lectures.

More organization in the class, notes, homeworks, etc.

no

No

I felt satisfied with the resources provided

N/a

Additional Comments:
no
The professor was amazing, and I appreciated the time he took during office hours to help me through this course.
N/A
He was pretty good
This professor has multiple mistakes in typing correct multiple parts of multiple homeworks. He does not reply fast the emails
instructor is available for help which is nice, but there are way to many emails. I get the exact same email 5 times a day from t
